Access Solutions

With our access solutions our client will benefit rapid mobilization, minimal set up time and limited disruption. The foundation of our success is a strong safety culture ensuring all projects are delivered utilizing the highest quality materials, a trained and experienced workforce. All our onsite operations are fully supported by our engineering and QHSE teams

Access Solutions at Al Qaim Engineering Services LLC

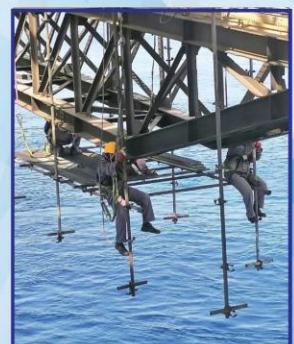

SCAFFOLDING

We deploy a competent team of specialists they can erect and dismantle any design in the most efficient and safe manner, including certified inspectors and supervisors, experienced foremen, scaffolders and helpers. We mostly mobilize our own qualitative scaffolding equipment, but are equally able to provide a design, erect and dismantle service using our customer's equipment.

ROPE ACCESS SOLUTIONS

Rope access is a simple and preferred means of access to industries such as oil & gas, petrochemical, Power Generation, Construction, Environmentally sensitive areas and other complex areas where scaffolding is not possible.

We provides highly trained, competent specialists that are well versed in the art of using rope to access challenging areas.

Al Qaim Engineering Services LLC

Industrial Coating & Industrial Insulation

We are specialized in surface preparation and application of protective coatings and lining systems for providing long-lasting protection – safely & cost effectively. Our team consists of experts who are fully conversant with the application of all modern coatings. There are no limitations to the type of coating system we can apply and our solid organizational skills, highly experienced staff, and dedicated management will ensure a quality job to the requirement of ISO-9001 quality system.

We are providing following cost effective solutions for surface preparation & coating.

Surface Preparations – Solvent Cleaning, Hand Tool/Power Tool Cleaning, Acid Pickling, Blast Cleaning using shot or grit, water jetting & wet abrasive blasting.

Coating – Acrylic, Alkyds, Bituminous, Epoxy Amine, Epoxy Polyamide, Epoxy Coal Tar, Epoxy Phenolic, Epoxy Ester, Inorganic and Organic Zinks, Silicones, Urethanes, Vinyls, Glassflake etc.

Al Qaim's various industrial insulation solutions are vital for companies as they can run a safe & cost-effective business. It helps to reduce global warming, saves energy by reducing heat transfer, maintaining process temperature, preventing condensation & vapourization, prevention of corrosion, absorption of vibration, Passive fireproofing etc.

Al Qaim providing following insulation services in Petrochemical and Oil & Gas industries across Oman.

Thermal Insulation – mineral-fibre insulation, protective cladding, insulation mattresses, high temperature insulation (ceramic fibre, calcium silicate)

Cryogenic/Cold Insulation – PIR (Polyisocyanurate), Polyurethane (PUR) rigid foam, Cellular glass

Acoustic Insulation – Cold & Hot Acoustic

Personal Protection - Metal mesh guards, thermal insulation materials
